

HELIOSA® 66 BLACK

HEAT WITHOUT LIGHT

STAR PROGETTI
TECNOLOGIE APPLICATE

HELIOSA® 66 BLACK

Star Progetti Spa is currently carrying out models of heaters without light emission.

Such heaters, having a high heating power and low consumptions, are going to meet the needs of customers and architects wishing to use this new heater, eco-friendly and effective, without invasive lights that may change the designed setting.

HELIOSA® 66 BLACK

develops an impressive heating power over a wide surface accounting for approx. 18/20 sqm.

HELIOSA® 66 BLACK

Thanks to its design and compact sizes can be easily installed anywhere without problems.

HELIOSA® 66 BLACK

is especially tailored for the designing needs of architectural studios, as well as for all the most prestigious and important environments.

Its matt optic black colour enhances its shape and makes it ideal for any place.

It is ideal in:

- RESTAURANTS • HOTELS • TERRACES
- ROOF GARDENS • HISTORICAL SITES
- CASTLES AND VILLAS • MEETING ROOMS
- EVENTS
